

Impetus Technologies and Kyvos Become AWS Data and Analytics Consulting Competency Partners

Help businesses uncover meaningful insights and accelerate BI on AWS

LOS GATOS, SAN FRANCISCO, USA, April 13, 2022 /EINPresswire.com/ -- Impetus Technologies Inc. and Kyvos Insights Inc. today announced that the companies have become an Amazon Web

Services (AWS) Data and Analytics Consulting Competency Partner. This status recognizes the companies' expertise in helping enterprises unearth mission-critical business insights and accelerate business intelligence (BI) on AWS.

“

We're thrilled to have achieved the AWS Competency as it validates our track record in helping customers transform data into business value through scalable processing, analytics, and BI solutions.”

*Anand Raman, SVP – Sales at
Impetus Technologies and
Kyvos*

From [massive-scale data processing](#) and [single-click data lake setup](#) to benchmarking, audits and advanced reporting, Impetus has helped several Fortune 500 enterprises realize a more unified, clear, and present view of their data on AWS. The company is also an AWS Advanced Consulting Partner with 100+ AWS certified engineers.

Kyvos is a [cloud BI acceleration platform](#) that delivers high-

performance analytics at massive scale on AWS. Kyvos leverages Amazon EMR and Amazon Simple Storage Service (Amazon S3) to build and store aggregates on massive data, bringing multi-dimensional capabilities to the BI ecosystem. With Kyvos on AWS, businesses can analyze trillions of rows of data in sub-seconds.

“We focus on helping organizations develop a cohesive AWS strategy that supports innovation, accelerates business results, and delivers a competitive advantage,” said Anand Raman, Senior Vice President – Sales at Impetus Technologies and Kyvos. “We're thrilled to have achieved the AWS Data and Analytics Consulting Competency as it validates our deep expertise and proven track record in helping customers transform their data into business value through scalable processing, analytics, and BI solutions.”

AWS provides the broadest and deepest set of managed analytics and machine learning services to help enterprises make faster decisions, improve customer experience, and reduce business

risk by turning data into insights. AWS Data and Analytics Competency Partners have demonstrated success in helping customers evaluate and use the tools and best practices for collecting, storing, governing, and analyzing data at any scale.
