Roughly more than 15 million people suffer from chronic symptoms of rhinosinusitis in the

United States, that is, prevalence of chronic rhinosinusitis ranges from 1% to 5% of the total US population. Chronic rhinosinusitis is primarily characterized by nasal blockage, inflammation of the sinus and nasal linings, facial pain along with rhinorrhea and loss of sense of smell. Effective treatment includes improvement in sinus outflow, enhancement of mucociliary clearance and elimination of inflammation and local infection among other associated treatments.

Key market companies studied and profiled for this research include AstraZeneca, Bayer AG, Ivax Pharmaceuticals, Pfizer, Novartis Pharmaceuticals Corporation, Sanofi, Sunovion Pharmaceuticals, Cipla, Smith Nephew, Medtronic, SinuSys Corporation, Olympus Corporation and Acclarent among other companies

Effective treatment includes improvement in sinus outflow, enhancement of mucociliary clearance and elimination of inflammation and local infection among other associated treatments. Additionally, increase in implementation of minimally invasive surgical procedures, widespread awareness concerning the symptoms of the target disease across regions and technological progressions among other favorable scenarios are likely to augment the growth of industry during the period of 2020-2027. However, low preference towards sinus surgical undertakings, post-surgery risks of sinus treatment and high cost of treatment may hinder the growth of chronic rhinosinusitis market in the forecast period.

Regeneron Pharmaceuticals and Sanofi's Dupixent (Dupilumab) was approved in June 2019, by US Food and Drug Administration (FDA). This drug is customized for adults with inadequately controlled chronic rhinosinusitis along with nasal polyposis

Owing to favourable reimbursement policies, high prevalence of target disease and technological advancements among other encouraging scenarios North America accounted for largest market revenue with significant market share of 37.2% in 2019

Xolair (Omalizumab) manufactured by Novartis, was approved in August 2020, by European Commission (EC). The product development is attributed to treat severe chronic rhinosinusitis with nasal polyps. Due to considerable employability of antibiotics and their effectiveness in efficiently treating chronic rhinosinusitis, antibiotics product segment held largest market share of 41.6% in 2019 and is likely to dominate the industry during 2019-2027

Immune deficiency disease segment in the disease outlook registered highest CAGR of 7.1% in 2019 whereas, anatomical differences disease segment accounted for largest market share of approximately 37.5% owing to increase in prevalence of target disease across the globe

Highlights of the TOC:

1. Report Overview
  - 1.1 Research Scope
  - 1.2 Key Chronic Rhinosinusitis market segments
  - 1.3 Major players
  - 1.4 Market analysis by product
  - 1.5 Market analysis by application
  - 1.6 Report timeline
2. Global Growth Trends
  - 2.1 Global Chronic Rhinosinusitis market size
  - 2.2 Latest Chronic Rhinosinusitis market trends
  - 2.3 Key growth trends
3. Competitive Landscape
  - 3.1 Global Chronic Rhinosinusitis market key players
  - 3.2 Global Chronic Rhinosinusitis size by manufacturers
  - 3.3 Products of major players
  - 3.4 Entry barriers in the Chronic Rhinosinusitis market
  - 3.5 Mergers, acquisitions, joint ventures, and strategic alliances

Emergen Research have segmented Chronic Rhinosinusitis Market on the basis of product, disease type, distribution channel and region:

Product Outlook (Revenue in Million USD; 2017–2027)

Steroids

Topical Nasal Steroid

Systemic Steroids

Nasal Irrigation

Hypertonic and Isotonic Saline

Steroid Nasal Irrigation

Topical Antibiotic Therapy

Surgical Based

Ethmoidectomy

Endoscopic Intranasal Intervention

Others

Antibiotics

Amoxicillin-Clavulanate

Clindamycin

Sulfamethoxazole

Levofloxacin

Macrolide Therapy

Antifungal Therapy

Disease Outlook (Revenue in Million USD; 2017–2027)

Anatomical Differences

Nasal Tumors

Mucosal Edema

Non-Allergic Rhinitis

Immune Deficiency

Other

Distribution Channel (Revenue in Million USD; 2017–2027)

Hospital Pharmacies

Retail Pharmacies

Drug Stores

Other

Key Points of Chronic Rhinosinusitis Market:

Extensive coverage of the analysis of the Chronic Rhinosinusitis market

Key insights into the regional spread of the industry in key geographies

Radical insights into the vital market trends; both current and emerging trends, and factors influencing the growth of the market

Comprehensive coverage of the impact of the COVID-19 pandemic on the overall growth of the Chronic Rhinosinusitis market

Complete data about the key manufacturers and vendors in the Chronic Rhinosinusitis market
