“

Merging “real people” support and modern technology allows us to provide our clients with information they trust, reduce their time to fill positions, and help them make better hiring decisions.”

The site offers many new features to help users quickly and easily navigate the site. This includes a new Client Support tab that contains many important compliance resources, forms, and guides them to the new self-service chat portal for other questions. This keeps clients compliant, educated, and informed.

There is a new Applicant Support tab where applicants can ask questions about their background checks. It includes information about how to dispute a report and many other resources, and FAQs and guides them to the new self-service portal for additional support.

The Industry Solutions pages are tailored to specific industries which speak to their hiring pain points and highlight products and services specific to their hiring and compliance needs. Small businesses will find a newly created Data Facts Direct Small Business portal with quick and easy signup.
