According to 'Automotive Pumps Global
Market Report 2022 – Market Size,
Trends, And Global Forecast 2022-2026'

published by The Business Research Company, the automotive pumps market size is expected to grow from \$18.95 billion in 2021 to \$19.76 billion in 2022 at a compound annual growth rate (CAGR) of 4.25%. The growth in the market is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. As per TBRC's global automotive pump market report, the market size is expected to reach \$24.34 billion in 2026 at a CAGR of 5.35%. The rising electrification of vehicles is expected to propel the growth of the automotive pumps market.
