Market Abstract:

Fast-moving consumer goods (FMCG) industry has witnessed a massive surge in demand over the recent past owing to rising disposable income level, launch of advanced and innovative products, growing demand for household and personal care products, healthcare products, and food & beverages. Growing consumer inclination towards packaged foods due to increasing lifestyle changes and rapid integration of convenience stores and doorstep delivery has contributed significantly to the revenue growth of the market. FMCGs or consumer goods are frequently purchased, have lower prices, short shelf life, and are consumed rapidly. Consumer preference has shifted to local purchases which has increased promotional efforts by the government and key companies to generate brand awareness in hard-to-reach areas.

The report further discusses in detail the strategic initiatives undertaken by key companies such as mergers and acquisitions, joint ventures, collaborations, partnerships, product launches, and brand promotions to gain a robust footing in the market. Key companies operating in the market are profiled on the basis of company overview, financial standing, global and regional market position, production and manufacturing capacity, gross profit margins, and business expansion plans.
