

India Cigarette Lighter Market Industry Size, Share, Growth, Demand and Forecast 2021-26

SHERIDAN, WYOMING, UNITED STATES, April 18, 2022 /EINPresswire.com/ -- According to the latest report by IMARC Group, titled "[India Cigarette Lighter Market](#): Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026," the market is expected to continue its moderate growth during the forecast period (2021-2026).

Cigarette lighter refer to hand-held devices that are used for producing flames to light a cigar, pipe or cigarette. They consist of a metal or plastic body that is filled with pressurized liquid gas or combustible fluid that facilitates ignition. These devices are compact and relatively convenient to use when compared with matchboxes.

As the novel coronavirus (COVID-19) crisis takes over the world, we are continuously tracking the changes in the markets, as well as the industry behaviours of the consumers globally and our estimates about the latest market trends and forecasts are being done after considering the impact of this pandemic.

India Cigarette Lighter Market Trends:

The market in India is majorly driven by a considerable increase in the smoking rates across the country. This can be accredited to the hectic lifestyles led by the masses and their rising stress levels. Along with this, numerous key players are investing in research and development (R&D) activities to launch innovative product variants in the market. For instance, battery-powered and flameless pocket lighters that are characterized by enhanced user safety are gaining widespread prominence across the country. Some of the other factors contributing to the market growth include rapid urbanization, the advent of flint and automobile lighter variants, and the escalating preference toward premium product variants.
