

Impetus Technologies Achieves AWS DevOps Competency Status

Company's expert DevOps services help enterprises manage modern data platforms at scale on AWS

LOS GATOS, SAN FRANCISCO, USA, April 19, 2022 /EINPresswire.com/ -- Impetus Technologies Inc., a leading software products and services company, announced that it has achieved Amazon

Web Services (AWS) DevOps Competency for development, security, and operations (DevSecOps). This recognizes that Impetus has demonstrated proficiency and proven customer success specializing in DevSecOps, and validates the company's ability to help enterprises manage modern data platforms on AWS.

“

Impetus is proud to have achieved the AWS Competency. We will use our expertise to further help businesses drive cloud automation, shorten development cycles, enhance security, and optimize costs.”
