On the basis of functionality, the pneumatic cylinder market is segmented into single acting cylinder and double acting cylinder. The double acting cylinder segment held the dominant position in the pneumatic cylinder market and is projected to retain its dominance throughout the forecast period. The double acting cylinders are faster, stronger, and require less energy to complete the task as compared to single acting cylinders. However, double acting pneumatic cylinders are more expensive. Increasing demand for high speed or forced mechanical devices in various industrial applications is one of the major factors for high growth of the double acting cylinders segment.

Key players in the market include: SMC Corporation, Festo, Parker Hannifin Corporation, Aventics, Aro (Ingersoll Rand), Univer Group, Camozzi, Metal Work, AirTac, Ashun Fluid Power Co, and others.
