Elli's stunning new drop, "New Love"

This song is a masterpiece of authenticity and originality, describing the new love that one needs to start over and how there is a need to embrace real opportunities in life. Out with the old and in with the new, "New Love" is a commemoration of renewed feelings, embracing one's new heart with new love for the world and for life.

"New Love" was unveiled for listeners on April 15th, 2022, and features Danny G as a guest artist on the track, who provides an emotional verse, pushing the listener towards a gripping narrative. The artist inspires listeners by shedding light on suicide awareness, weaving together another poignant, powerful, and emotional verse referencing his grapple with his own mental health from one of his hit releases- "November 29th".

"I believe this song will be received by our listeners because it gets to the core of life which is [that] life is full of second chances and embracing love is a choice, eventually that you must

choose to grow,” says Elii regarding his magnetizing musical compositions.

With the new release Elii hopes to compel the listener to simply feel and express out loud what is true a feeling of love; connecting with the listener on a whole new profound level, through the expression of energetic and positive feelings.
