

Vera Bloom is Hoping for 'Serenity'

NASHVILLE , TENNESSEE, UNITED STATES, April 19, 2022

/EINPresswire.com/ -- Rock artist, Vera Bloom, is making new moves. Here with her next single, 'Serenity', Bloom is hoping to spread an uplifting message. This song was written at the beginning of the pandemic lockdown when we were all isolated and scared. Vera Bloom is hoping that releasing this song now, as the world is slowly opening back up and blooming again, will allow this song to blossom and hopefully provide some reflection and introspection on these last two years and maybe encourage some to see some silver-linings. Bloom's vulnerable and authentic approach to songwriting allows audiences everywhere to connect on a human level with her work.

Vera Bloom is finding freedom. Whether she's taking her motorcycle off on a long stretch of empty road or delivering an epic rock show, she's honest, open, and untethered to anyone's narrative but her own. Hailing from the Pacific Northwest, Bloom echoes west coast influences in her music. The powerhouse rocker is both sweet and blunt, a personality trait that holds true in her music. Inspired by punk, singer-songwriters, and rockers from the 70s and 80s, she is influenced by icons like Joan Jett, Pink Floyd, Iggy & The Stooges, and Tom Petty, when writing. As a songwriter, she aims to translate raw feelings into her music, inviting listeners to go through the emotions with her. Her art speaks to her joys and pains in life, rooted in honest emotion and a candid perspective. Dedicated to discovering her voice on stage or in the studio, she is delivering an art that's real. Vera Bloom is raw and authentic, yet polished and professional; an impressive, rebellious, and noteworthy force of nature.

'Serenity' will be available everywhere music is found on April 22nd! You can pre-save it [here](#). Be sure to follow Vera on socials, and keep up with all of her upcoming projects on her [website](#)!
