

# Property I.D. launches the first Digital Signature Enabled NHD

*The NEW Property I.D. release upgrades its already renowned MAX NHD with Digital Signatures*

CONTRA COSTA, CA, UNITED STATES, April 25, 2022 /EINPresswire.com/ -- Property I.D. announced today the launching of the FIRST DocuSign compatible Digital Signature Enabled NHD real estate disclosure report. Property I.D. is using a new advanced processing method designed to enable NHD reports with Digital Signatures. This advance in the NHD report allows Property I.D. MAX users to save up to 10 minutes per transaction.

The screenshot shows a digital signature interface. At the top, it says "Save Time, Save Money" in teal, followed by "Digital Signature Enabled NHD". Below that, it says "Only from" with a red triangle icon and "PROPERTY ID". There is a yellow "Sign" button with a downward arrow. To the right, there is a "Signed By:" section with a signature "John Doe" and a long alphanumeric string "6489EA84346EF...". To the right of the signature are two input fields labeled "Name" and "Date". At the bottom, a teal banner says "Save up to 10 MINUTES per transaction!"

The Property I.D. MAX NHD with digital signature enabled pages, now automatically places all of the signature boxes, fill-ins, and checkboxes in the document ready to be assigned to the signers with no more time-consuming dragging & dropping or document prep. Each field is adjusted and applied to the document as soon as it is loaded into the users DocuSign envelope. By combining the largest real estate disclosure data-bank of Property I.D., with IST cognitive technology, the Property I.D. MAX NHD report understands unprecedented amounts of data while intelligently optimizing the user experience.
