

Plastic Caps and Closures Market Size | Growth Trends Report, 2027

SHERIDAN, WYOMING, UNITED STATES,
April 20, 2022 /EINPresswire.com/ --

According to IMARC Group's latest report, titled "[Plastic Caps and Closures Market](#): Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2022-2027", The global plastic caps and closure market reached a value of US\$ 43.2 Billion in 2021. Plastic caps and closures are a part of product packaging, which is lightweight, durable, versatile, and resistant to high temperatures. They protect products

from contamination, microbial spoilage, and other environmental factors. They also enhance the aesthetics and functionality of products and make their handling convenient during transportation. As a result, they are widely employed in the food and beverage (F&B), chemicals, pharmaceuticals, and cosmetics industries across the globe.

Plastic caps and closures offer numerous advantages over caps and closures made using other materials, such as metal and rubber. This, in confluence with the increasing demand for packaged [water](#), alcoholic drinks, and noncarbonated beverages, represents one of the key factors strengthening the market growth. Besides this, due to rising environmental concerns, manufacturers around the world are employing bioplastics to produce plastic caps and closures. They are also utilizing holographic and QR+ technologies to ensure the safety of products, which is creating a favorable market outlook. Looking forward, IMARC Group expects the market to reach US\$ 59.0 Billion by 2027, exhibiting at a CAGR of 5.32% during 2022-2027.
