

# Different Types of Clean Outs Offered by Junk Removal Companies

FREEPORT, NEW YORK, UNITED STATES OF AMERICA, April 21, 2022

[/EINPresswire.com/](https://EINPresswire.com/) -- When it comes to Junk Removal, people usually think of getting rid of old furniture, appliances, or other large items. However, Junk Removal companies offer various services beyond just removing large objects. This article will explore five different types of Clean Outs that Junk Removal companies provide.

## 1. Garage Clean Outs

A garage clean-out is perfect for when homeowners want to declutter their garage or if they need to make room for a car. Junk Removal companies will remove all unwanted items from the garage, including old furniture, boxes of junk, and any other unwanted items.

Garage cleanouts are usually priced by the square footage of the garage. Homeowners can also choose to have a Junk Removal company remove certain items from their garages, such as old appliances or furniture.

## 2. Estate Clean Outs

An estate clean-out is perfect for when a loved one passes away, and the family needs help clearing out their home. Junk Removal companies will remove all unwanted items from the house, including furniture, clothes, personal belongings, and other unwanted things.

## 3. Storage Unit Clean Outs

If someone is moving out of their storage unit or just trying to make more space for new items, then a storage unit cleanout is an excellent option for them. Junk removal companies will handle all of the heavy liftings, hauling, and proper disposal of items that need to be taken.

#### 4. Whole House Clean Outs

A whole house clean-out is another clean-out option for when homeowners are moving or if they want to declutter their home. If requested, large items such as furniture, appliances, and boxes will be removed from the house. This option is perfect for those who want to start with a clean slate.

Junk Removal companies will also estimate how long the job will take based on the number of items that need to be removed. Pricing for a whole house clean-out is usually done by the hour or by the amount of junk that needs to be removed. Homeowners can also choose to have specific rooms cleaned out, such as the basement or attic.

#### 5. Commercial Space Clean Outs

If a commercial property owner or tenant is clearing out their space, junk removal companies can be helpful. They will remove any unwanted items from the property, including office furniture, equipment, and other materials.

Pricing for commercial space cleanouts is usually done by the hour or square footage. However, some companies may also charge a flat rate for specific items, such as electronics or hazardous materials.

Junk Removal companies offer various services to help homeowners and businesses declutter their spaces. Garage, estate, storage unit, whole house, and commercial space cleanouts are just a few of the many services offered. When considering a Junk Removal company, ask about all of their services to make sure you choose the right one for your needs.
