Kitten Coin, a 2-month old meme coin on the Binance Smart Chain, is getting ready to release their NFTs. 500 custom NFTs (non-fungible tokens) have been designed and will soon be available for purchase by Kitten Coin holders and the general public.

Each Kitten Coin NFT has a personality of its own and will make a cool addition to anyone's collection, whether it's their first NFT or one of many. The Kitten Coin community is currently working on adding special perks for people that hold one of their NFTs. Some of the ideas being considered include extra entries into future lotteries, free

entries into Kitten Coin giveaways, and early access to future NFT releases.

The Kitten Coin community has stepped up to locate and research various NFT marketplaces and potential partners. Finding a partner that is focused on providing a safe and seamless process to get the new NFTs into the hands of prospective buyers, and making sure it benefits the Kitten Coin community, has been the major focus. The goal is to have the NFTs available for purchase by the end of April or early May.

In addition to the release of their NFTs, Kitten Coin runs various contests on Twitter and their Telegram channel on a consistent basis and is planning on having a lottery in the near future. Add in its dedicated, 100% volunteer-based community, and Kitten Coin is redefining what it

means to be a meme coin.
