

Point-of-Use Water Treatment Systems Global Market To Grow At Rate Of 11% Through 2026

The Business Research Company's Point-Of-Use Water Treatment Systems Global Market Report 2022: Market Size, Trends, And Forecast To 2026

LONDON, GREATER LONDON, UK, April 22, 2022 /EINPresswire.com/ --

According to 'Point-of-Use Water Treatment Systems Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026' published

by The Business Research Company, the [point-of-use water treatment systems market size](#) is expected to grow from \$15.25 billion in 2021 to \$16.57 billion in 2022 at a compound annual growth rate (CAGR) of 8.64%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The global point-of-use water treatment market size is expected to reach \$24.80 billion in 2026 at a CAGR of 10.61%. The rise in prevalence of water-borne diseases is driving the point-of-use water treatment systems market growth.

The point-of-use water treatment systems market consists of sales of point-of-use water treatment systems by entities (organizations, sole traders, and partnerships) that provide point of use (POU) device, which is a water treatment device installed on a single faucet for the purpose of eliminating contaminants in drinking water. POU devices are widely used in households to improve water quality. These devices are also installed by private well owners or public water suppliers to meet drinking water quality standards.

Global [Point-of-Use Water Treatment Systems Market Trends](#)

Technological innovation is a key trend gaining popularity in the point-of-use water treatment
