"Their concept of filming a one year documentary in Virtual Reality for critically ill, children with learning disabilities, mobility issues and bringing the meta-verse to improvised people around the world over inspired me!" Dream On film crew in order to help them showcase the best that Europe has to offer." Says "Mikael Svensson the Co-President of EUFCN

The EUFCN has amazing film locations across Europe. They will support [Dream On Films](#) on their film project, entitled the '[Silver Surfer Euro-Tour](#)', with accessing site locations, necessary film permits and providing safe guidelines for film production during COVID 19. In addition, as the EUFCN plays an active role in raising awareness of the environmental impact of film production they will further assist the Dream On Film crew in offering solutions towards a green-friendly film making approach.

Mr Svensson added. "I look forward to a solid working relationship and exploring how this could lead to a 'win-win' relationship for both parties. I have invited Mr. Farion to the Cannes Film Festival May 17th', 2022 to introduce him too other members to the EUFCN to help him further organize a successful film documentary."

Mr Farion responds by adding "This endorsement from the European Film Commissions Network further validates our higher purpose of bringing life changing travel experiences through virtual reality to those people in the world who need them most."
