Custom T-shirt Printing Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026

SHERIDAN, WYOMING, UNITED STATES, April 25, 2022 /EINPresswire.com/ -- According to the latest report by IMARC Group "Custom T-shirt Printing Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026", The [global custom T-shirt printing market](#) exhibited strong growth during 2015-2020. Looking forward, IMARC Group expects the market to grow at a CAGR of around 9% during the forecast period (2021-2026).

Custom T-shirt printing refers to a digital process for fabricating customized clothing items. This process is affordable, reliable, requires minimum maintenance, and offers ease and comfort. Several companies across the globe are employing custom T-shirt printing over other personalization methods, as it assures mass production of T-shirts at high speed with durable and excellent quality.

Market Trends:

The rising influence of social media, coupled with increasing personalized trends in the fashion industry are primarily driving the market growth. Moreover, various key manufacturers are offering unique designs, styles, colors, types, and fonts on distinct fabrics and materials with print-on-demand T-shirts via inkjet printing, enabling customizable patterns with detailed and extensive color ranges. Additionally, the introduction of electronic printing enables commercial printing of designs and logos on T-shirts, thereby propelling the global market. Besides this, the growing popularity of innovative promotional tools is further escalating the demand for custom T-shirt printing to spread brand awareness and expand the consumer base. Additionally, the increasing number of online portals for customizable T-shirt printing will continue to propel the market growth over the forecasted period.
