

It's time for a new learning revolution: Ukrainian Smart LMS enters the UK market

UKRAINE, April 25, 2022

/EINPresswire.com/ -- [AcademyOcean](#), a Ukraine-based Learning Management System, which has created a unique technology for personalizing learning, has announced its entry into the UK market.

“We are very grateful to the UK government and its people for supporting Ukraine, and we are ready to support your business in digital services. We consulted with the best Learning and Development professionals around the world to create LMS 2.0 that will revolutionize learning. Imagine, now each of your employees, clients, or partners will be able to learn in a way that is more engaging, clearer, and easier for them to learn better. This helps people become more confident and happy, and businesses get more profit. And I'm sure businesses in the UK will appreciate the platform!” — Vladimir Polo, Founder & CEO at AcademyOcean

AcademyOcean team creates the future of training

AcademyOcean has been working on personalizing and humanizing the experience for learners. They developed “Dynamic content”, a unique technology with no alternatives on the market. AcademyOcean analyzes learning data (for instance, how learners respond to tests and surveys) and helps tailor learning to the individual's needs. Every learner will receive those types of content that will help him have more fun and learn better.

What you should know about AcademyOcean LMS
