

Europe Lawful Interception Market Size, Share, Trends, Opportunities and Forecast 2021-2026

SHERIDAN, WYOMING, UNITED STATES, April 25, 2022 /EINPresswire.com/ -- According to the latest report by IMARC Group, titled "[Europe Lawful Interception Market](#): Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026," The Europe lawful interception market is expected to continue its robust growth during the forecast period (2021-2026).

Lawful interception (LI) refers to a legally approved surveillance system for circuit and packet-mode communications. It involves service providers and network operators collecting and providing law enforcement officials with access to private individuals or organizations. Lawful interception is administered by tapping telephone lines, emails, mobile data, instant messaging, and internet-based services. It has gained traction in Europe to aid in numerous investigation processes by collecting evidence for better examination.

Europe Lawful Interception Market Report

As the novel coronavirus (COVID-19) crisis takes over the world, we are continuously tracking the changes in the markets, as well as the industry behaviours of the consumers globally and our estimates about the latest market trends and forecasts are being done after considering the impact of this pandemic.

Europe Lawful Interception Market Trends:

The rising interchange of information through open IP-based communication networks is driving the Europe lawful interception market. Moreover, the escalating demand for lawful interception technologies to prosecute criminals and disrupt future terrorist acts is also augmenting the

growth of the market. In addition to this, various countries across the region are utilizing the opportunities offered by telecommunications systems to combat crimes. This, in turn, is bolstering the product demand. Apart from this, various government bodies are increasingly adopting lawful interception to monitor and decrypt digital and analog information. Additionally, the elevating demand for highly secured 5G technology with 256-bit encryption is projected to fuel the market growth over the forecasted period.

Europe Lawful Interception Market 2021-2026 Analysis and Segmentation:

The report has segmented the market on the basis on country, network technology, device, communication content, service, end user.

Breakup by Network Technology:

- Voice-Over-Internet Protocol (VoIP)
- Long Term Evolution (LTE)
- Wireless Local Area Network (WLAN)
- Worldwide Interoperability for Microwave Access (WiMAX)
- Digital Subscriber Line (DSL)
- Public Switched Telephone Network (PSTN)
- Integrated Services for Digital Network (ISDN)
- Others

Breakup by Device:

- Mediation Devices
- Routers
- Intercept Access Point (IAP)
- Gateways
- Switches
- Management Servers
- Others

Breakup by Communication Content:

- Voice Communication
- Video
- Text Messaging
- Facsimile
- Digital Pictures

File Transfer
Others

Breakup by Service:

Professional Services
Managed Services
System Integrators

Breakup by End User:

Government & Public Affairs
Law Enforcement Agencies
Small & Medium Enterprises

Breakup by Country:

Germany
France
United Kingdom
Italy
Spain
Others
