leading [business management platform](#) for IT and office supplies VARs in the United States and Canada. VARStreet’s platform offers a product catalog with rich content from [45+ IT and office supplies distributors](#) like Ingram Micro, Tech Data, BlueStar, ScanSource, Westcon Comstor, Supplies Network, SP Richards and more. Value-added resellers use the platform to build advanced sales quotations, launch their B2B eCommerce store along with free CRM and procurement solutions.

As a part of their quarterly platform update, apart from bug fixes, VARStreet has added some really interesting features to the application based on the inputs received from multiple customers. VARStreet users can now login to

Backoffice application using Azure through Single Sign On. Similarly their end customers can also now login to Store using SAML through Single sign on.

Along with the above-mentioned updates, VARStreet’s development team made changes in tax settings and Environment Handling Fees (EHF) for Canadian customers. VARStreet has introduced a new tax rule by customer type. For Canadian VARs they have also introduced a flag in to Include or Exclude EHF amount based on province.

VARStreet has also introduced an enhancement to authenticate user when confirming cart/quote or view order. They have also introduced enhancement to retrieve estimated ship dates from distributors and display them in VARStreet BackOffice and also on Storefront along with an ability to set up estimated ship date notification. New Payment gateway integrations like Versa Pay and Clover were also introduced as requested by many customers.

Apart from this various other features like – Ability to download packing slip in excel format, Introduction of UPC (Universal Product Code) field on product details page, ability to activate quick check out on storefront were also a part of the release.

Shiv Agarwal, Director, VARStreet Inc., said, "We are continually improving features on our platform to meet customer specific needs and offer intelligent solutions to help them achieve their business goals." He further added, "Our new enhancements will surely empower customers to run their business more efficiently."
