

Understanding the Basics and the Benefits of OPP Token Services

USA, April 28, 2022 /EINPresswire.com/
-- The Owner's Purpose Project plans to launch the Opportunity Token (OPP) on the Bscscan and RC Launchpad on April 30th, 2022, 19:00 UTC. Join the Public / Presale for project owner's one-stop shop.

OPP Token Services: More Benefits

With OPP token services, you can leverage a wide range of benefits. Opportunity Token or OPP is the native token of Owner Purpose that functions as a BEP-20 token on BSC (Binance Smart Chain). Once users get the OPP token, they can start to take advantage of the dedicated platform like the Owner's Services.

Use the OPP token as part of the paid services on the Owner's platform and comes with the Purpose Content Creator. When it comes to purpose content creation, you can dive into Project Genius generator, Discounted Crypto Services, Genius Creator generator, and Allocated Genius Bonuses for Holders.

Simplified Approach

The Owner's Purpose acts as a client-based platform where users can

Owner's Purpose Project
Public Presale Launch April 30th, 2022

Tokenomics

- 14% Buy/Sell Tax
- 7% Weekly BNB Bonuses (Hold \$200 OPP token min*)
- 4% Marketing
- 2% Liquidity
- 1% Dev

There are no wallets for the team or the developers.
No vesting period for the launch.
After 24 hours, all holders will receive tokens.
10% extra tokens for the private sale.
The whitelist winners will invest first, followed by the general public.

* To qualify for the bonus, you must have a minimum amount of OPP tokens. Anyone who sells within 7 days will not receive their full reward, which will be redistributed to those who held or did not sell.

register for individual accounts and get access to dedicated token services. In a short time, OPP has managed to garner significant attention from users

Shared Purpose of the Project

Owners Purpose acts as one of its kind virtual platform for OPP token holders. In fact, it effortlessly and conveniently creates new crypto use cases, contract designs, crypto initiatives, and business proposals. One of the reasons the OPP token is bound to get more mainstream is that it is an all-in-one spot for project owners to make investments.

OPP Token Partnerships

One of the first major partnerships of OPP is with RC Launchpad. But the extent of services and use cases of OPP tokens are not just reserved for RC Launchpad. In fact, the hallmark purpose of the OPP token is to drive more crypto community efforts. In line with these efforts, the OPP token will target all Launchpads across different chains.

Ultimately, the OPP token intends to make more partnerships and capture the attention of more users. It would be interesting to see when the OPP token platform partners up with Launchpads on Ethereum, Polygon chain, AVAX, etc.

What Gains You Can Expect from OPP Token

Users with a minimum amount of \$200 OPP tokens in their wallet are eligible to get a weekly bonus. There is also 2% of LP from selling and buying to maintain the OPP token and boost the confidence of token holders in the project. The project also offers 7% of BNB bonuses each week for investors not selling their OPP tokens in a week.

Final Thoughts

The endgame of the OPP token platform is to make it possible for its regular token holders to become dedicated and advanced Owners. Right from the development phases and until the roll out of the token project, users just need to establish crypto initiatives. In hindsight, once you create an account, you can gain full access to attractive OPP token services.
