The fishing, hunting, and trapping market consists of sales of fishing, hunting, and trapping products by entities (organizations, sole traders, and partnerships) that are engaged in fishing (including commercial aquaculture), hunting, and trapping activities. This market excludes processed products such as canned food and game meat (after butchering). This market also excludes proceeds from captive (internal) consumption of the 'fishing, hunting, and trapping' produce for further processing.

Global Fishing, Hunting And Trapping Market Trends

Technological advanced Fish Aggregating Device (FAD) are increasingly being adopted by the fishing companies for increased production. FAD is a structure or device, made of any material, used to lure fish. In recent years, the FAD is available with sonar and satellite buoys for receiving efficient tracking information related to marine animals.
