

Infection Control Market Size, Share, Trends, Opportunities and Forecast 2021-2026

SHERIDAN, WY, UNITED STATES, April 26, 2022 /EINPresswire.com/ -- According to the latest report by IMARC Group, titled "[Infection Control Market Size: Global Industry Trends, Share, Growth, Opportunity and Forecast 2021-2026](#)," the global infection control market is expected to grow at a CAGR of around 7% during 2021-2026 Forecast Period.

Infection Control Market

Infection control involves the adoption of various practices, such as standard immunizations, cleaning, disinfecting and sterilizing objects and surfaces, and mandatory usage of protective clothing, such as gloves, masks, and surgical drapes and gowns. These practices assist in eliminating and preventing the multiplication of pathogens and ensuring the safety of patients and healthcare workers. Presently, infection control practices play a pivotal role in healthcare settings, such as hospitals, clinics, and laboratories, to reduce the exposure to microorganisms, such as parasites, bacteria, fungi, and viruses, which can cause severe eye, ear, skin, respiratory, and urinary tract infections.

Infection Control Market Trends:

Due to the global spread of coronavirus disease (COVID-19), there is a rise in the adoption of infection control practices and equipment for minimizing the risk of cross-contamination. Moreover, the increasing prevalence of chronic diseases and hospital-acquired infections (HAI) on account of the rising hospital admission rates and accelerating use of reusable medical devices is driving the market. Apart from this, due to the rising food safety concerns among consumers, food manufacturers are increasingly emphasizing on disinfection and sterilization to lessen the risk of food contamination and the festering of beverages. They are also introducing single-use medical nonwoven devices and sanitizers with high-intensity infection prevention capabilities, which is projected to propel the market growth.

As the novel coronavirus (COVID-19) crisis takes over the world, we are continuously tracking the changes in the markets, as well as the industry behaviours of the consumers globally and our estimates about the latest market trends and forecasts are being done after considering the impact of this pandemic.

Global Infection Control Market 2021-2026 Analysis and Segmentation:

Competitive Landscape:

The competitive landscape of the market has been studied in the report with the detailed profiles of the key players operating in the market.

3M Company, Advanced Sterilization Products Services Inc. (Fortive Corporation), Belimed AG (Metall Zug), Cantel Medical Corp., Getinge AB, Matachana, Metrex Research LLC (Envista Holdings and Sybron Dental Specialities Inc.), MMM Münchener Medizin Mechanik GmbH, Pal International, Sterigenics U.S. LLC (Sotera Health Holdings LLC), Steris Corporation and TSO3 Inc. (Stryker Corporation).

The report has segmented the market on region, type and end user.

Breakup by Type:

- Equipment
- Disinfectors
- Washers
- Flushers
- Ultrasonic Cleaners
- Sterilization Equipment
- Heat Sterilization
- Low Temperature Sterilization
- Radiation Sterilization
- Filtration-Based Sterilization
- Others
- Services
- Contract Sterilization
- ETO Sterilization
- Gamma Sterilization
- E-Beam Sterilization
- Steam Sterilization
- Infectious Waste Disposal

Consumables
Disinfectants
Sterilization Consumables
Personal Protective Equipment
Others

Breakup by End User:

Hospitals and Clinics
Medical Device Companies
Clinical Laboratories
Pharmaceutical Companies
Others

Breakup by Region:

North America: (United States, Canada)
Asia Pacific: (China, Japan, India, South Korea, Australia, Indonesia, Others)
Europe: (Germany, France, United Kingdom, Italy, Spain, Russia, Others)
Latin America: (Brazil, Mexico, Others)
Middle East and Africa
