Retired FBI special agent John Desouza, Aerospace Historians James C, Goodall along with Michael Schrott breakdown the implications of the cover-up, and the false UFO narrative created by the major media & others. How much does the President of the United States really know about the UFO phenomenon and the Above Top Secret projects involved with exotic technology? Billy Carson presents the real motivation behind the major media and the U.S. Military role out of the UAP phenomenon."

In this film, Multi-award filmmakers Blake and Brent Cousins travel across the country to find the real answers to everyone's questions about whether we are alone in the universe and expose the above top secret projects involved with ET recovered craft, not of this world. Is there an Alien threat among us, or is the real threat human in nature? Above Top Secret, the technology behind disclosure will change the way you think about UFOs and the world of suppressed technology.

"This event will be truly historic for those seeking the truth. We have created an incredible team to expose the hidden agendas of so many. This event has a minimal cost for those who want to attend the symposium, but it will also be available via Livestream to anyone around the world who would like to join and take part in this historic disclosure," says Bob Brown, one of the two founders of UFO Mega-Conference.
