An extensive analysis of the global market is included in the report which covers different factors from region-centric key statistical data to macro- and micro-economic factors that are crucial for forecast assessment. The study also offers a comprehensive analysis of the growth prospects, patents, technological advancements, and product launches in the market.

Based on regional analysis, North American market is expected to account for largest revenue share over the forecast period. Bakery item consumption in countries in North America is significantly high and such items are in high demand during various festive occasions and seasons. Asia Pacific accounted for fastest revenue growth rate in 2020 due to significantly large consumer base of various bakery and confectionery products in countries in the region. In addition, some of the major sugarcane producing countries are in the region including India, China, and Thailand.

Growth of the food & beverage industry is majorly attributed to rising global population, substantially growing demand for food, rise in agricultural activities around the world, and increasing sales of packaged and processed foods. Industry revenue growth is further driven by factors such as surging demand for organic food products, increasing demand for natural food ingredients and additives, and rise in imports & exports of food & beverages worldwide. Technological advancements in food processing and packaging solutions, increasing number of online food delivery businesses, and rising disposable incomes of consumers around the world factors further contributing to the growth of this industry.
