

## Cone Beam Imaging Market Report 2021-26: Trends, Share, Size, Growth, Opportunity And **Forecast**

SHERIDAN, WY, UNITED STATES, April 28, 2022 /EINPresswire.com/ -- According to the latest report by IMARC Group, titled "Cone Beam Imaging Market Size: Global Industry Trends, Share, Growth, Opportunity and Forecast 2021-2026," The global cone beam imaging market exhibited moderate growth during 2015-2020. Looking forward, IMARC Group expects the market to grow at a CAGR of around 6% during 2021-2026

Cone beam imaging refers to an advanced medical imaging technique used for maxillofacial and dental surgeries. It

Cone Beam Imaging Market

produces three-dimensional (3D) images of nerve paths, bones, soft tissues, and dental structures to detect subtle fractures or other disorders in the craniofacial region. It consists of a cone-shaped digital X-ray scanner that is fixed on a 360-degree rotating arm to capture images from different angles. It is widely utilized in numerous clinical operations for visualizing abnormal teeth, planning dental implants, diagnosing jaw deformities and dental caries, and assessing cleft palate.

Report Metric

Historical: 2015-2020

Base Year: 2020

Forecast Year: 2021-2026

As the novel coronavirus (COVID-19) crisis takes over the world, we are continuously tracking the changes in the markets, as well as the industry behaviours of the consumers globally and our estimates about the latest market trends and forecasts are being done after considering the impact of this pandemic.

Global Cone Beam Imaging Market Trends:

The increasing geriatric population, which is more susceptible to oral problems, represents one of the key factors propelling the growth of the market. Apart from this, the growing consumer preferences for cosmetic dentistry like teeth alignments and teeth whitening treatments are catalyzing the demand for cone-beam computed tomography (CBCT) systems. Furthermore, technological advancements, such as the innovation of flat panel detectors to conduct imageguided surgeries, are driving the market.

Global Cone Beam Imaging Market 2021-2026 Analysis and Segmentation:

Competitive Landscape:

The competitive landscape of the market has been studied in the report with the detailed profiles of the key players operating in the market.

Asahi RoEntgen Ind. Co. Ltd., Carestream Health Inc., Cefla S.C., Curve Beam LLC, Danaher Corporation, Dentsply Sirona, J. Morita Mfg. Corp., Planmeca Group, Prexion Corporation and Vatech Co. Ltd.

The report has segmented the market on the basis on region, application, patient position, detector type and end user.

Breakup by Application:

Implantology

Orthodontics

**Oral Surgery** 

**Endodontics** 

Periodontology

Orthopedics

**ENT** 

Others

Breakup by Patient Position:

Standing

Seating

Supine

Breakup by Detector Type:

Flat Panel Image Detector Image Intensifier Type Detector

Breakup by End User:

Hospitals and Clinics Diagnostic Centers Others

Breakup by Region:

North America: (United States, Canada)

Asia Pacific: (China, Japan,India, South Korea, Australia, Indonesia, Others) Europe: (Germany, France,United Kingdom, Italy, Spain, Russia, Others)

Latin America: (Brazil, Mexico, Others)

Middle East and Africa
