Key Takeaways – Pharmaceutical Grade Sodium Chloride Market Study

In the medical sector, pharmaceutical grade sodium chloride consumption is dictated as per authoritative organizations, resulting in a number of manufacturers obtaining Good Manufacturing Practice (GMP), FDA and other certifications to adhere by the guidelines of safe manufacturing as well as utilizations.

Applications of pharmaceutical grade sodium chloride continue to diversify in treating array of

diseases such as gastrointestinal disorders, diabetes, and cancer of blood and kidney has been registered over the past decade, resulting in a nearly 40% increase in demand for pharmaceutical grade sodium chloride-containing medical solutions over the period of 2009-2019.

Developed countries such as the U.K., the U.S., Germany, China, and others have been self-reliant on manufacturing medicines and solutions to treat chronic kidney diseases (CKD).

Low-income countries, majorly from the Middle East & Africa, are dependent on organizations such as WHO and UNICEF for supplements. To strengthen supply to these economies, UNICEF has openly extended support to governments to scale-up their ORS circulation by promoting quality co-packaged ORS and ensuring a secure and functioning program.

Who is Winning Competition?

The market is heading towards consolidation as key manufacturers are opting for inorganic techniques; however, multiple potential manufacturers are coming up as response to increased demand in recent years. To establish presence globally, new players have to be leaders in the local market first. Some key participants mentioned in the pharmaceutical grade sodium chloride market report are K+S Group, Akzo Nobel N.V., Dominion Salt Ltd, Morton Salt LLC, and Tianjin Changlu Haijing Group Co., Ltd., among others

Key players are constantly enhancing their manufacturing capabilities by expanding and enhancing existing processing facilities and products, along with investments in the research & development sector to expand their product portfolio and acquire relatively smaller players and increase production capacities. Furthermore, players in emerging markets are focusing on rapid business expansions and increasing value-additions in their product offerings.

Pharmaceutical Grade Sodium Chloride Market By Category

By Type:

API-NaCl
HD-NaCl

By Application:

Injections
Hemodialysis
Oral Rehydration Salts

Osmotic Agents
Others

By Region:

North America
Latin America
Europe
Middle East and Africa (MEA)
East Asia
South Asia
Oceania
