Market Abstract:

Fast-moving consumer goods (FMCG) industry has witnessed a massive surge in demand over the recent past owing to rising disposable income level, launch of advanced and innovative products, growing demand for household and personal care products, healthcare products, and food & beverages. Growing consumer inclination towards packaged foods due to increasing lifestyle changes and rapid integration of convenience stores and doorstep delivery has contributed significantly to the revenue growth of the market. FMCGs or consumer goods are frequently purchased, have lower prices, short shelf life, and are consumed rapidly. Consumer preference has shifted to local purchases which has increased promotional efforts by the government and key companies to generate brand awareness in hard-to-reach areas.

The statistical data included in the report has been derived from reliable and authentic sources and has been verified and backed by industry experts to help readers formulate strategic investment plans. The report studies financial information gathered by extensive primary and secondary research to offer accurate market insights. The report also offers a holistic overview of the market share, market size, market revenue growth, and segments and sub-segments along with strategic recommendations to key market players and new entrants. The report also emphasizes nascent market segments and provides insights into the growth prospects and opportunities.
