

Global Mobile Security Market Size, Share, Growth, Opportunity, Key Players and Industry Trends 2021-2026

SHERIDAN, WY, USA, April 29, 2022 /EINPresswire.com/ -- According to IMARC Group's latest report, titled "<u>Mobile Security Market</u>: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026", the global mobile security market is expected to exhibit a CAGR of around 18% during 2021-2026. Mobile security consists of measures that are undertaken for protecting sensitive

data stored and transmitted by mobile devices through personal <u>identification</u> numbers (PINs), passwords, and pattern screen locks. It offers endpoint protection, email security, secure web gateway, cloud access security broker (CASB), and mobile enterprise management (EMM) platform depending on the requirements of the user. Several enterprises are increasingly relying on mobile security services to minimize risks, secure devices against accidental loss and malware threats, and restrict unauthorized network access.

We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Mobile Security Market Trends and Drivers:

The rising popularity of mobile security with other network security solutions to manage users and their devices remotely and combat the threat of cyberattacks and breaches is one of the prime factors driving the market growth. The increasing use of mobile devices, such as laptops, smartphones, and <u>portable</u> universal serial bus (USB) memory sticks is boosting the market growth. The emerging trend of smart electronic devices and the rising popularity of the internet of things (IoT) are other factors creating a positive outlook for the market. Mobile Security Market 2021-2026 Competitive Analysis and Segmentation:

Competitive Landscape With Key Players:

The competitive landscape of the mobile security market has been studied in the report with the detailed profiles of the key players operating in the market.

Some of these key players include:

Apple Inc.
Google Inc.
International Business Machines Corporation
AT&T Inc.
Quick Heal Technologies Ltd.
Broadcom Inc.
Microsoft Corporation
Clitrix Systems Inc.
Ilrend Micro
Werizon Communication Inc.

Key Market Segmentation:

The report has segmented the global mobile security market on the basis of offering, deployment mode, operating system, end user, vertical and region.

Breakup by Offering:

BolutionsBervices

Breakup by Deployment Mode:

• Iloud-based • Dn-premises

Breakup by Operating System:

•DS

•Android

•Windows

Dthers

Breakup by End User:

IndividualEnterprises

Breakup by Vertical:

•BFSI

- •Ilelecom and IT
- •Retail
- •⊞ealthcare
- •Government & Defense
- Manufacturing
- Dthers

Breakup by Region:

- •North America
- •Asia-Pacific
- •Europe
- •🛛 atin America
- •Middle East and Africa

Key Highlights of the Report:

Market Performance (2016-2021)
Market Outlook (2022-2027)
Market Trends
Market Drivers and Success Factors
Impact of COVID-19
Value Chain Analysis
Comprehensive mapping of the competitive landscape

If you need specific information that is not currently within the scope of the report, we will provide it to you as a part of the customization.

About Us

IMARC Group is a leading market research company that offers management strategy and market research worldwide. We partner with clients in all sectors and regions to identify their highest-value opportunities, address their most critical challenges, and transform their

businesses.

IMARC's information products include major market, scientific, economic and technological developments for business leaders in pharmaceutical, industrial, and high technology organizations. Market forecasts and industry analysis for biotechnology, advanced materials, pharmaceuticals, food and beverage, travel and tourism, nanotechnology and novel processing methods are at the top of the company's expertise.

Our offerings include comprehensive market intelligence in the form of research reports, production cost reports, feasibility studies, and consulting services. Our team, which includes experienced researchers and analysts from various industries, is dedicated to providing high-quality data and insights to our clientele, ranging from small and medium businesses to Fortune 1000 corporations.
