

February 2022 New Manufactured Home Production Data Released by Manufactured Housing Association for Regulatory Reform

MHARR will begin planned monthly news release of total HUD Code manufactured home production information starting with February 2022 data. Top 10 states listed.

WASHINGTON, D.C., UNITED STATES, May 1, 2022 /EINPresswire.com/ -- The Manufactured Housing Association for Regulatory Reform (MHARR) reports that according to official statistics compiled on behalf of the U.S. Department of Housing and Urban Development (HUD), HUD Code manufactured housing industry year-

over-year production increased in February 2022. Just-released statistics indicate that HUD Code manufacturers produced 9,281 homes in February 2022, a 16% increase over the 7,995 new HUD Code homes produced during February 2021. Cumulative production for 2022 now totals 18,391 homes, an 11.6% increase over the 16,471 homes produced during the same period in 2021.

“

HUD Code manufacturers produced 9,281 homes in February 2022, a 16% increase over the 7,995 HUD Code homes built during February 2021. Cumulative 2022 totals 18,391 homes an 11.6% increase over 2021,”

Mark Weiss, J.D., President and CEO of MHARR.

Manufactured Housing Association for Regulatory Reform Logo is posted in the featured image collage which includes a photo of an industry trade event.

A further analysis of the official industry statistics shows that the top ten shipment states from the beginning of the industry production rebound in August 2011 through February 2022 — with cumulative, monthly, current year (2022) and prior year (2021) shipments per category as indicated — are as shown in the graphic.

The February 2022 data results in no changes to the cumulative top-ten shipment list.

The Manufactured Housing Association for Regulatory

Reform is a Washington, D.C.-based national trade association representing the views and interests of independent producers of federally-regulated manufactured housing.

Notice. The Manufactured Housing Association for Regulatory Reform currently offers the largest known published searchable database of monthly HUD Code manufactured housing production reports. Years of manufactured home production information is available online to journalists, researchers, public officials and others who are seeking factually accurate information on manufactured homes.

This will be the first in a planned monthly series of manufactured home production reports that can be accessed via the MHARR website at the link below.

<https://manufacturedhousingassociationregulatoryreform.org/category/manufactured-home-shipments/>

The MHARR monthly manufactured home production and top ten shipment states data will be made available circa the first business day following the third of a given calendar month. March 2022 total manufactured home production data is expected to be published circa May 3, 2022.

The primary MHARR web address is:

<https://manufacturedhousingassociationregulatoryreform.org/>.

A brief history of MHARR is found at this link below. From the home page the latest news information and views from MHARR can be found by scrolling the association's home page.
