## About International Society Cosmetogynecology (ISCG)

Founded in 1990, the International Society of Cosmetogynecology (ISCG) is the world’s first and largest association of specialists in female cosmetic medicine and surgery. Their large professional network and busy international lecturing agenda gave them unique access to some of the finest aesthetic surgeons worldwide and unique insights into their methods. Combining elements of aesthetic body contouring standards such as liposuction, abdominoplasty, breast surgery, and the new wave of cosmetic vaginal surgery with elements and concepts of minimally invasive surgery, their practice evolved into a fusion that they dubbed cosmetogynecology.
