

DV-2023 Green Card Winners will be announced on May 7th, 2022

All applicants should check if they are selected for further processing as soon as possible.

WILMINGTON, DELAWARE, UNITED STATES, May 6, 2022 /

EINPresswire.com/ -- Applicants who used the US Green Card Office Submission Service will receive an email regarding their status. Those who are successful will receive a phone call. While you don't need to manually check, you can do so by using our [Green Card Lottery winner status checking system](#) starting at noon (EDT) on May 7, 2022

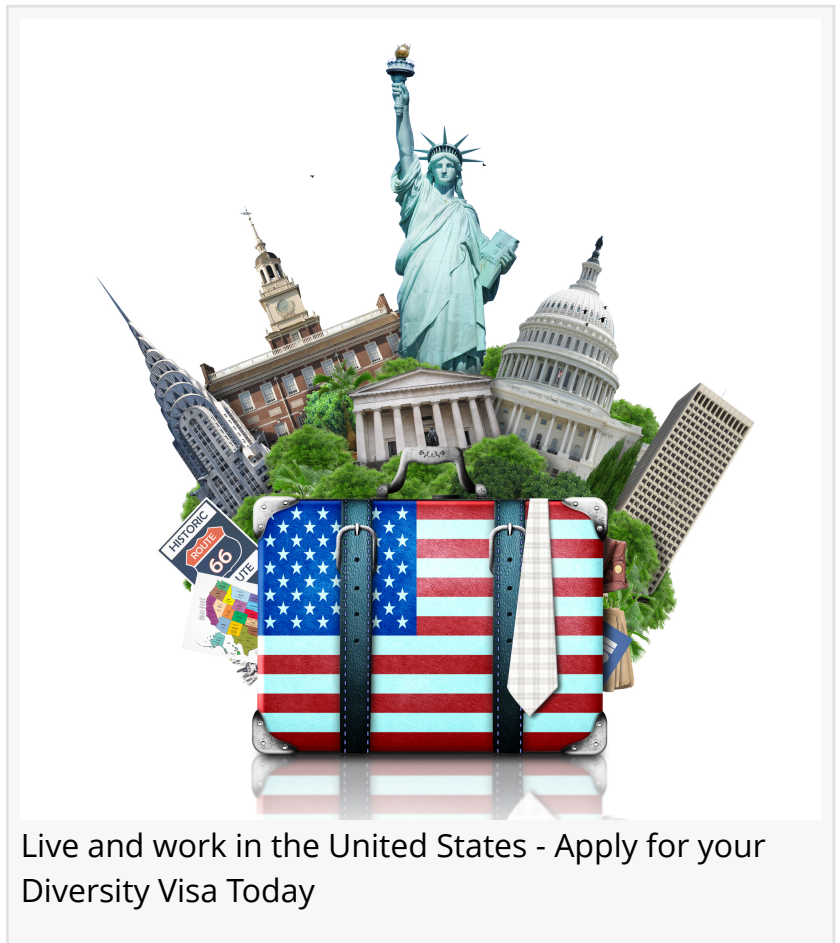

If you prefer to check your status directly on the US government website, you can check if your application has been selected on [state.gov](#). Please be aware due to high demand in the first few weeks of May, the US government service may be very slow or temporarily unavailable.

Please note: Only applicants whose confirmation number begins with 2023 will be able to check their status. This number would have been issued by the US Government in either October or November 2021 and sent to your email if you used the paid submission service.

If you didn't apply during the last registration period or aren't successful, you'll be able to start registration for this year's program now by [submitting your DV-2024 application online](#).

Understanding the Green Card Lottery Draw

The Green Card Lottery uses a random draw system run by a computer. This is the only way to ensure it is actually random and impartial. Your entry number is what's used as your lottery ticket and, as mentioned, is also how you check your status after the draw.

Live and work in the United States - Apply for your Diversity Visa Today

If you're not successful this year, you can always try again in 2022 for the upcoming DV-2024 Green Card Program"

Thomas Smith USGCO

It's worth noting that, even if your number is drawn, it doesn't mean you're automatically entitled to a Green Card. There are some finer points worth understanding. So, while it's certainly exciting to see that you've won, hold off on your full celebrations until you've completed the DS-260 application process.

The first thing to note is that despite issuing up to 55,000

Green Cards, somewhere around 125,000 numbers are drawn at this stage of the lottery. This is because more than 50% of the applicants won't continue for one reason or another. It could be that they change their mind, or that they're deemed ineligible.

Which brings us on to the next point. After your number is drawn, you'll need to submit your DS-260 application form. Doing this means you'll be able to secure an interview at the American Embassy or Consulate, allowing you to continue with your application.

From this stage, it's basically like any other Green Card application. You'll need to provide documentation and attend an interview. If you submitted your lottery application through the US Green Card Office, we'll help you with this stage, too.

What Happens if You Don't Win?

Unfortunately, due to the fact that more than 6 million people applied for the Green Card Lottery in 2021, you might not be successful this year. So, what happens next if you weren't one of the lucky ones?

Well, you can simply apply again this year! The benefit of using a service like US Green Card Office is that we still have all your information on file, meaning it's easy to put together a correct application for a new lottery draw. Reach out to us using the contact information below, and we can discuss it in more detail with you.

We appreciate that not winning can be disappointing. But, as mentioned, it's quite a competitive draw. Luckily, there's no limit to the number of years you can apply, so it always makes sense to keep on trying.

Why Use a Paid Application Service?

You can apply for the Green Card Lottery for free through the US State Department's website. However, what you save in money you risk in success, as completing any application form without professional help increases the chance of errors.

Using the US Green Card Offices provides numerous benefits over doing it yourself.

These include:

- You won't be disqualified due to an error in your application.
- Your application will be submitted on time – that's guaranteed.
- Your application is guaranteed to be accepted by the US government.
- Your confirmation number will be sent to your email on time.
- You get the best chance of being selected. No one can beat that!

Around 65% of applications are rejected each year due to error or omission. Even something as minor as the wrong background in your application photo can affect your status, and this kind of mistake is easily avoidable when using a dedicated application service.

Rather than taking the risk, apply through the US Green Card Office to ensure your application is handled correctly. They also offer guidance for handling your application interview.

Winners will also benefit from the US Green Card Office's help moving to the USA, as their service can arrange everything needed to transport you and your belongings to the United States.

Changes to the Green Card Lottery

In fact, there hasn't been a better time to apply for a US Green Card than right now. President Joe Biden was vocal about his support for immigration and has followed through with many of these promises during his time in office.

One of the most significant amendments was his US Citizenship Act of 2021. This brought in a number of reforms, but perhaps the most notable is the Diversity Visa Program cap increase. It is today up to 55,000 but plans are to increase it to 80,000 per year.

If nothing else, this demonstrates a more positive attitude towards diversity than America has seen for a number of years now. Allowing more applicants from countries with typically low rates of US immigration only serves to improve the country's cultural diversity.

If you need professional assistance with your immigration matters to the United States then give US GREEN CARD OFFICE a call and talk to one of our immigration lawyers. We are here to help your dream come true. Call us now on +1 646 564 5615
