

Dermatology Medical Lasers Market Grows At Rate 19%, With The Rising Demand For Cosmetic Procedures

The Business Research Company's Dermatology Medical Lasers Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026

LONDON, GREATER LONDON, UK, May 4, 2022 /EINPresswire.com/ -- The growing demand for cosmetic procedures is expected to drive the [dermatology medical lasers market](#).

There has been an increase in the number of people opting for cosmetic procedures to enhance the appearance levels and treatment of defects on the

skin. According to the American Society of Plastic Surgeons data, \$16.7 billion was spent on cosmetic procedures in the U.S. in 2020. The poll also revealed that 11% of women surveyed said they are more interested in cosmetic plastic surgery or non-surgical procedures than before COVID-19. Dermatology lasers are used in cosmetic procedures such as removal of fine lines, wrinkles, skin tightening, pigmented lesions, precancerous lesions, vascular lesions, tattoos, hair removal, acne scars, and others. Hence, the growing demand for cosmetic procedures among users aids in the growth of the dermatology medical lasers market.

The global [dermatology medical lasers market size](#) is expected to grow from \$2.56 billion in 2021 to \$3.04 billion in 2022 at a compound annual growth rate (CAGR) of 19%. The global dermatology medical lasers market size is expected to grow to \$5.82 billion in 2026 at a compound annual growth rate (CAGR) of 17.6%.

Companies are increasingly investing in Picosecond Lasers for skin treatments other than tattoo removal as they have found their use in the treatment of acne, skin lightening, and skin

tightening. For instance, LaserOptek received FDA clearance for its PicoLO picosecond laser device used for the treatment of scars and skin rejuvenation. Therefore, the use of picosecond lasers in dermatological processes is expected to be the new trend in the dermatology medical lasers market.

Major players covered in the global dermatology medical lasers industry are Cynosure, Peninsula, Miracle Laser, Syneron, Shenzhen GSD, Sinochere, Fotona, Alma Lasers Ltd, and Cutera.

TBRC's global dermatology medical lasers market report is segmented by device into surgical lasers, vascular lasers, by end-users into hospitals, skin care clinics, cosmetic surgical centers, by application into cancer, hair removal, tattoo removal, resurfacing, other applications.
