

Must B2B Metaverse announces Metaverse Day event to explore the B2B Metaverse Trends and Innovations in 2022.

We organize Metaverse Day event to bring together professionals, designers, engineers, innovators, influencers, addicts, from across the Metaverse ecosystem.

GIF-SUR-YVETTE, ÎLE-DE-FRANCE, FRANCE, May 9, 2022

/EINPresswire.com/ -- The Metaverse livestream day will be hosted by Must B2B Metaverse platform, which developed the first collective, permanent, and shared digital space in

the world where companies can connect, socialize, exhibit, showcase products, matchmake, network and transact. It is open 24/7 and free for visitors. Already more than 150 companies have their booths in Must B2B metaverse and more than 10000 members have registered.

“

“This event is a great opportunity for attendees and related ecosystem to enjoy B2B networking in an immersive way. the B2B Metaverse experience will be spectacular with the appearance of avatars...”

Said Hanene Maupas, Must CEO.

Welcome to the world of Metaverse where people work, play, buy and socialize. It is the concept of a future iteration of the internet. This new convergence of our digital and physical realities will run on 5G, intelligence and interactivity will be powered by AI/ML and transactions will be secured by blockchain. It is not only about 3D gaming, but also the next step for social media networks (Facebook announcement), the future of digital marketplaces by bringing new forms of customer engagement to sell more products and services as well as new financial transactions as NFT (Non-Fungible Token).

In this conference, we will focus on getting the latest innovation and trends in the metaverse development to help our high-tech community and companies, to face their major new challenges, build their roadmap and find their next partners. We will deep dive, from METAVERSE

DISCOVERY to METARVERSE APPLICATIONS AND USE CASES.

Among the speakers, you will meet technology leaders of the Metaverse industry as well as most recognized startups with disruptive technologies.
