The prepared meal delivery market consists of sales of prepared meals by entities (organizations, sole traders, and partnerships) that provide prepared meals through subscription-based business model in which companies send clients ready-to-cook fresh ingredients for home-cooking meals. Prepared-meal delivery services are convenient, consisting of meals that can be simply reheated or cooked instantly and consumed, with minimum cooking, cutting, or cleaning required.

## Global [Prepared Meal Delivery Market Trends](#)

Contactless delivery is the new trend gaining popularity in the prepared meal delivery market. As the COVID-19 pandemic continues to wreak havoc over the globe, social separation will remain a well-established way of life. Food outlets are embracing innovative food delivery platforms to drive seamless contactless deliveries, keeping the safety of customers and delivery personnel in mind.
