

# Water and Wastewater Treatment Market Trends, overview, Revenue, Region & Country Share, Growth Analysis Till 2027

*Rapid urbanization and industrialization, coupled with increasing demand for clean water, are driving the demand of the market.*

VANCOUVER, BC, CANADA, May 7, 2022 /EINPresswire.com/ -- The global [Water and Wastewater Treatment Market](#) will be worth USD 472.53 Billion by 2027, according to a current analysis by Emergen Research. The growth of this market can be attributed to the lack of

freshwater resources in different parts of the world. The growing global population is suffering from the scarcity of water, especially the people from Africa and the Middle East, which has increased the adoption of the water and wastewater treatment facilities in the region. The rapid urbanization, infrastructural and technological developments of the existing sewage treatment facilities have augmented the demand for water and wastewater treatment facilities over the forecast period.

The report, additionally, offers a comprehensive SWOT analysis and Porter's Five Forces analysis to offer a better understanding of the competitive landscape of the industry. It also covers strategies adopted by prominent players such as mergers and acquisitions, collaborations, joint ventures, product launches, and brand promotions, among others. The report aims to offer the readers a holistic understanding of the relevant features of the industry. The study addresses the elements driving the worldwide Water and Wastewater Treatment Market. Traders and investors can use this data to strategize to increase market share, and newcomers can use it to locate opportunities and grow in the business. There are also some restrictions on the expansion of this market.

Major Players/Manufacturers profiled in the report are:

Acciona, Veolia, Ecolab Inc., SUEZ S.A., Kurita Water Industries, Xylem Inc., DuPont, Orenco systems, Hydro International, and Aquatech International LLC, among others.

Some Key Highlights from the Report

The municipal segment held the largest market share of 57.4% in 2019 as the water, and wastewater treatment facilities are extensively used by the municipal corporations. The scarcity of freshwater in the developing economies has resulted in the increasing usage of water treatment facilities by municipal corporations.

The chemical segment is forecasted to grow with the fastest CAGR of 7.6% over the forecast period. Chemicals such as coagulants & flocculants are widely used by the municipal corporation to remove the suspended solid particles from the wastewater.

The Asia Pacific region is expected to be the fastest-growing region over the forecast period. Rapid urbanizations and industrializations and increasing investments by public and private organizations for technological advancement of water treatment facilities are expected to drive this segment's growth.

In June 2020, Siemens collaborated with Acciona in order to create a Digital Twin to improve water treatment plants. The new technology achieved through this collaboration is used to analyze, optimize, and improve productivity, reducing operating times, and finding faults early.
