

“Stop Inflation” Campaign Launched by Fiscal Responsibility Advocates

QR Code Connecting Voters to Elected Officials

DAYTONA BEACH, FLORIDA, UNITED STATES, May 9, 2022 /EINPresswire.com/ -- A coalition of nonpartisan advocates concerned about the impacts of inflation and out-of-control national debt

“

If Congress had complied with the Constitution in 1979 by Calling the Fiscal Responsibility Amendment Convention, we could have saved \$29 trillion in debt and 70% of the dollar's purchasing power.”

David Biddulph

recently launched a national “Stop Inflation” campaign. The effort supported in part by the Let US Vote for a Balanced Budget Amendment Citizen’s Campaign, Inc. is seeking to connect concerned citizens with elected officials to advocate for fiscal responsibility.

The “Stop Inflation” campaign is encouraging citizens concerned about [higher prices, slow growth](#), and their impact on future generations, to utilize a QR Code that will put them in direct contact with their elected officials.

The QR Code is part of an image of a gas pump overlaid on a stop sign with “Stop Inflation” at the top and bottom of the graphic. As people use the QR Code they are taken to a website with more information and a direct link to share their concerns with their state and federal representatives. Visitors are encouraged to ask officials to pledge to support a state-drafted, inflation-fighting, Fiscal Responsibility Amendment to the United States Constitution.

“If Congress had complied with the Constitution in 1979 by Calling for the states to draft and the people to ratify a U.S. Balanced Budget Amendment, we could have saved [more than \\$29 trillion](#) in debt and prevented a 70% decline in the dollar's purchasing power,” explained David Biddulph, Co-Founder of Let US Vote for a Balanced Budget Amendment Citizen’s Campaign. “On behalf of our granddaughters and future generations, we are proud to connect concerned citizens with their elected leaders to demand leaders address this problem without delay.”

“Any solution to the economic crisis, extreme taxation, and run-away spending will require a vote of the people. A Fiscal Responsibility Amendment would allow the people to vote on the solution and choose a brighter future for generations to come,” Biddulph continued. “Congress has ignored its responsibility for too long. It is time to let the people vote.”
