

ROCSOLE Awarded as Technology Pioneer by World Economic Forum

KUOPIO, FINLAND, May 10, 2022 /EINPresswire.com/ -- [ROCSOLE](#), the Kuopio-based Finnish high-tech company, was selected among hundreds of candidates as one of the World Economic Forum's "Technology Pioneers". ROCSOLE develops SEE BEYOND tomographic imaging system solutions used for improving process control and monitoring.

The [World Economic Forum's Technology Pioneers](#) are early to growth-stage companies from around the world that are involved in the use of new technologies and innovation that are poised to have a significant impact on business and society.

ROCSOLE Awarded as Technology Pioneer by World Economic Forum

With their selection as Technology Pioneer, CEO Mika Tienhaara will be invited to participate at World Economic Forum activities, events and discussions throughout the year. ROCSOLE will also contribute to Forum initiatives over the next two years, working with global leaders to help address key industry and societal issues.

“

We are thrilled to have been selected for the 2022 cohort and looking forward to contributing”

Mika Tienhaara

“We’re excited to welcome ROCSOLE to our 2022 cohort of Technology Pioneers,” says Saemoon Yoon, Community

Lead, Technology Pioneers, World Economic Forum. “ROCSOLE and its fellow pioneers are at the forefront of industries that are critical to solving some of our world’s most complex issues today. We look forward to their contribution to the World Economic Forum in its commitment to improving the state of the world.”

“We are thrilled to have been selected for the 2022 cohort and looking forward to contributing, said ROCSOLE’s Mika Tienhaara. “We must act now – energy production and manufacturing processes together stand for more than 50% of the anthropogenic GHG emissions. Actionable

insights for stable processing have been lacking, causing unexpected shutdowns and large emissions. With our tomography solutions for global industries, we are enabling our customers to perform better and to take the right measures for deep decarbonization.”

For the first time, over one-third of selected Technology Pioneer firms are led by women, well above the industry average. The firms also come from regions all around the world, creating a truly global community. This year’s cohort includes start-ups from 30 countries, with Vietnam, Rwanda and Czech Republic represented for the first time.

The diversity of these companies extends to their innovations as well. This year’s Tech Pioneer firms are shaping the future by advancing technologies such as AI, IoT, robotics, blockchain, biotechnology and many more. The full list of Technology Pioneers can be found [here](#).

Technology Pioneers have been selected based on the community’s selection criteria, which includes innovation, impact and leadership as well as the company’s relevance with the World Economic Forum’s Platforms.
