realme 9 Pro series and 9i launching on May 16 in KSA Market

RIYADH, SAUDI ARABIA, May 10, 2022 /EINPresswire.com/ -- [realme](#) lines up triple mobile launch – 9 Pro +, 9 Pro and 9i

[realme 9 Pro series](#) and 9i launching on May 16 in KSA Market

AIoT product realme Buds Q2 joins the bouquet

realme, the world's fastest-growing smartphone brand, will launch three mobile devices in KSA . realme 9 Pro, realme 9 Pro+, are the flagships in the mid-range series and the fastest Smartphone series which have touched 40 million shipments globally, along with 9i will be launched on May 16th with sales starting from May 18th.

Thrown in to the grand May launch is also the realme Buds Q2 wireless earpieces from its AIoT ecosystem.

One of the fastest smartphone product lines in the world, the realme 9 Pro series is all 5G product which will support all 5G networks benefit from being the first to adopt the MediaTek Dimensity 920 5G Processor.

9Pro+ comes with a flagship camera in the mid-range, while 9Pro is a powerful 5G phone powered by Antutu Score 403K processor, the highest in the price range. The model comes with Light Shift design with dual colour change under the sun, and is also the first Smartphone to be on the Paris Fashion runway.

realme 9 Pro series

With the 9 Pro series, realme is once again bringing new premium technology to the KSA market with its brand spirit of "Dare to Leap".

Sony IMX766 OIS Camera

9 Pro+ is the first Smartphone in the mid-range to feature the Sony IMX766 OIS Camera. The excellent Sony IMX766 image sensor, one of the sensors with outstanding performance on the flagship Smartphone, has a super large 1/1.56" sensor size and large pixel area. Not only that, the OIS lens provides the users with extraordinary image quality.

9Pro+ also comes with dual stereo speaker with Dolby Atmos and Ultra Smooth Display with high refresh rate. realme 9 Pro+ adopts the best camera in segment, equipped with ProLight Imaging Technology powered by Sony IMX766 and OIS & EIS dual stabilization and AI Noise Cancellation 3.0 Technology. It offers the best image quality in the segment.

With the MediaTek® Dimensity™ 920 5G processor, realme 9 Pro+ also has the best performance in the segment, with a benchmark score of over 500,00. Its screen is made of Super AMOLED material and supports a high refresh rate of 90Hz, providing brilliant colors and an incredibly smooth display, with an in-display fingerprint sensor that can detect heart rate.

And it is designed by realme Design Studio™ with three color variants, bringing an inspiring color-shifting design to the Smartphone industry - Light Shift Design. What's more, with dual

realme 9i phone

stereo with Dolby Atmos, X-axis motor tactile engine and 60W Super Dart Charge, realme 9 Pro+ delivers a flagship-level overall experience.

The most powerful 5G performance in segment – realme 9 Pro

As the standard edition in the powerful realme 9 Pro Series, the 9 Pro is also a performance powerhouse in segment. Equipped with Qualcomm® Snapdragon™ 695 5G processor, up to 13GB Dynamic RAM and liquid cooling system, realme 9 Pro has a terrific performance. It also features the advanced Light Shift design and a powerful 64MP Triple Camera with exclusive Street Mode 2.0. And it also features a 3.5mm Hi-Res Certified Headphone Jack and the latest realme UI 3.0 based on Android 12.

[realme 9i](#) debuting with Snapdragon 680

realme 9i will be the world's first Smartphone to have Snapdragon 680 6nm chip. realme 9i is anticipated to bring young consumers with a leap-forward performance experience again.

The Snapdragon 680 Processor adopts the advanced 6nm production process. It adopts an Octa-core CPU including four 2.4GHz Cortex-A73 and four 1.9GHz Cortex-A53, Adreno 610 GPU. The 6nm processor consumes 62% less power and affords 46% more performance than the 12nm processor.

Besides the latest SDM 680 6nm chip, realme 9i will also be equipped with a leading charging and battery, bringing a leap-forward performance in the segment. As a sales benchmark, realme 9i was also sold out after every flash sale.

realme Buds Q2 from AIoT ecology

realme Buds Q2 fulfils the company's strategic layout of "1+5" from cell phone to TV, laptop, tablet, wearable device and headset, and the product is at the new core and entrance of interconnection ecology.

These affordable pair of wireless earphones is a successor of realme Buds Q, and comes with active noise cancelation and app support.

An in-canal fit earpiece each weighing 4.6 grams, it is available in two colour choices - black and grey. It has an outer, touch-sensitive reflective area which displays varying colours in different angles thanks to realme 'gleaming lamination technology.'

A compact and discreet charging case is yet another value addition. Another differentiator is in the audio range quality and the realme Link app is known world over as one of the best in audio and IoT products. Realme Buds Q2 is compatible to iOS as well as Android.

Ends

About realme:
