

Mushroom Cultivation Market Size 2021, Growth Statistics, Industry Share, Business Opportunities, Upcoming Trends 2028

Increasing demand for edible mushrooms due to various health benefits is a key factor driving revenue growth in the global mushroom cultivation market

VANCOUVER, BC, CANADA, May 10, 2022 /EINPresswire.com/ -- The global [mushroom cultivation market](#) size is expected to reach USD 22.78 Billion in 2028, according to latest analysis by Emergen Research. Steady increase in demand for mushrooms is a key factor driving growth of the global mushroom cultivation market. According to various research, edible mushroom have medicinal properties and act as an antioxidant, anticancer, antiallergic, cardiovascular protector, and others.

Mushroom farming has become a profitable income source for small farmers in recent years. The production technique is entirely different from other vegetables as mushrooms can be grown on plants, sawdust, wood, husk, straw, and hay, etc. The cultivation process requires very little space and does not need fertile soil. These advantages driving mushroom production and cultivation as a primary business for marginal or landless producers. Many farmers are generating additional income through mushroom production during lean seasons.

Key Highlights of Report

In January 2019, South Mill Mushrooms and Champ's Mushrooms combined forces to create the leading mushroom producer and supplier in North America. This agreement helped South Mill Mushrooms meet rising demand in all mushroom marketplace segments throughout the United States and Canada.

Button mushroom segment is expected to register a relatively higher revenue CAGR throughout the forecast period. This can be attributed to increasing demand for button mushrooms due to nutritional properties and easy availability.

Asia-Pacific accounted for the major share in the global mushroom cultivation market. This can be attributed to increasing consumption of mushrooms and adoption of more modern mushroom cultivation processes in countries in the region.

The report demonstrates the progress and advancement achieved by the global Mushroom Cultivation market, including the historical analysis and progress through forecast years. The report provides valuable insights to the stakeholders, investors, product managers, marketing executives, and other industry professionals. The report provides an accurate estimation by applying SWOT analysis and Porter's Five Forces analysis. The report focuses on current and future market growth, technological advancements, volume, raw materials, and profiles of the key companies involved in the market.

Key Questions Answered in the Report:

What will be the estimated growth rate of the Mushroom Cultivation market by 2028?

Who are the prominent distributors, vendors, and manufacturers of the market?

What are the driving and restraining factors of the growth of the Mushroom Cultivation market throughout the forecast period?

What are the current and future market trends of the Mushroom Cultivation market?

What are the sales and price analysis of the product by types, applications, and regions?

What are the expected opportunities for the companies and new entrants in the coming years?
