

Pakistan Tyre Market Analysis Report 2022-2027 | CAGR of 5.1%

SHERIDAN, ALABAMA, UNITED STATES, May 11, 2022 /EINPresswire.com/ --

According to the latest report by IMARC Group, titled "[Pakistan Tyre Market: Industry Trends, Share, Size, Growth, Opportunity and Forecast 2022-2027](#)", the Pakistan tyre market reached a volume of 21.6 Million Units in 2021.

Looking forward, IMARC Group expects the market to reach 29.6 Million Units by 2027, exhibiting a CAGR of 5.1% during 2022-2027. Tyres are widely utilized in various types of

automobiles. They generally comprise a bead, sidewall, inner liner and body ply that is mounted over a wheel rim to act as a cushion. These components

are usually molded together that help in providing smooth transactions between the surface and the wheel. Tyres are widely utilized to support the weight of the vehicle while transmitting braking or traction force to the road surface. Additionally, they are also designed for reducing vibrations and absorbing road shocks while changing and maintaining the direction of travel.

We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.
