

Waterproof Bluetooth Speaker Market size to Grow by USD 4,585.3 Million | Emergen Research

Increasing preference for portable and waterproof smart devices, development of advanced connectivity solutions, and introduction of speakers

VANCOUVER, BC, CANADA, May 11, 2022 /EINPresswire.com/ -- The global [waterproof Bluetooth speaker market](#) size is expected to reach 4,585.3 Million in 2028 at a CAGR of 22.8% during the forecast period, according to the latest report by Emergen Research.

Increasing demand for portable speakers with advanced features, growing availability of speakers with sleek design and enhanced connectivity with smart devices, and rapid advancements in Bluetooth technology are some key factors expected to fuel market revenue growth over the forecast period. In addition, advent of wireless charging, growing preference for waterproof and dust proof electronic and smart devices, and increasing penetration of internet across the globe are also expected to contribute to revenue growth of the market going ahead.

Waterproof Bluetooth speakers can be paired with other connected and smart devices such as smartphones, computers, iPods, tablets, and other devices that support Bluetooth connectivity. Waterproof feature is measured by IP rating and it offers insights into the degree of protection offered by the electrical casings against solids and liquids. Manufacturers utilize various levels of protection – such as conformal coating, nanotechnology, tapes, and superhydrophobic coating, among others – to ensure speakers are waterproof.
