

2nd Annual MarketsandMarkets Minimally Invasive Surgery Conference- Piercing Into the World of Novel Surgical Procedures

PUNE, MH, INDIA, May 11, 2022

[/EINPresswire.com/](https://EINPresswire.com/) -- Growing technological innovations within the healthcare ecosystem combined with improvement in robotic accuracy & dependability through reliable data models have allowed minimally invasive surgical procedures to slowly develop into a pillar of modern medicine.

With the turn of the century, forays into MIS have displayed numerous benefits for patients & doctors. A shorter hospitalization combined with lesser trauma & relatively lower blood loss indicates that such procedures are not only assisting surgeons through efficient use of time but invariably reducing patients' suffering & pain while also facilitating faster recovery and bare minimum collateral damage or scarring to surrounding tissues.

Ultimately, the advantages outweigh the technical training and state-of-the art equipment procurement costs by a mile.

The pandemic prevented in-person scientific forums & technical conventions hence robbing us of opportunities to practically share knowledge amongst peers and our respective industries. We're here to turn back time & glance into the future as the world settles into the new normal.

The 2ND ANNUAL MARKETSSANDMARKETS MINIMALLY INVASIVE SURGERY CONFERENCE scheduled from 14th-15th SEPTEMBER 2022 in LONDON, UK aims to explore groundbreaking advances, future applications, upcoming challenges & the roadmap for the future growth of the MIS ecosphere.

DISCIPLINES BEING DISCUSSED :

- UROLOGY
- COLORECTAL

- BARIATRIC
- HIP & KNEE
- SPORTS INJURIES
- GYNECOLOGY

KEY HIGHLIGHTS & EXPECTED TAKEAWAYS :

- Emerging trends and challenges in robotic surgery using Da Vinci Si and Xi.
- Applications and future perspectives of 3D printing technology.
- Augmented and Virtual Reality in surgical education.
- New advances in three-dimensional laparoscopic surgery.
- Critical novel techniques in robotic nephrectomies and prostatectomies.
- Surgical innovations in haptics enabled image guided robotic surgery.
- Expert sessions on Trans-anal Endoscopic Microsurgery & Trans-anal Total Mesorectal Excision.
- TAMIS for colorectal disorders.
- 3D computer assisted patient specific knee and hip replacements.
- Advances and controversies in ACL surgery.
- Modern concepts in different approaches for hip and knee replacements.
- Effective breakthrough sessions on Lap Vs Robot approach.

A GLIMPSE AT THE ESTEEMED SPEAKER PANEL :

- oSanjeev Anand, Consultant Orthopedic Surgeon, Sports Injuries and Hip Arthroscopy, Leeds Teaching Hospitals - NHS Trust
- oBillal M. Barkatali, Consultant Specialist Knee Surgeon-Joint Preservation/ Arthroplasty, Spire Healthcare Group
- oHaytham Sumrien, Consultant Colorectal Surgeon & Lead for Colorectal Surgery, North Bristol NHS, Southmead Hospital
- oHashidhar Irukulla, Consultant Upper GI & Bariatric Surgeon, St. Peter's Hospitals NHS Trust
- oAndrea Volpin, Consultant Trauma & Orthopedic Surgeon - Lower Limb Arthroplasty & Soft Tissue Knee Surgery, NHS Grampian
- oDannis Giakoumakis, OB-GYN, Clinical Director, Mediterranean Fertility Institute
- oBawel Chomej, Specialist for Minimally Invasive Foot Surgery, Hallux-Zentrum Leipzig
- oBrasad Patki, Consultant Urology | Clinical Lead RLH Barts Health, Consultant Centre for Kidney Cancer, Royal Free NHS Trust
- oHaytham Sumrien, Consultant Colorectal Surgeon & Lead for Colorectal Surgery, North Bristol NHS, Southmead Hospital
