

Versasec Expands Partner Network in the Nordic Region With Skydome Cyber

Versasec Skydome Cyber partnership enforces the game changing strategy for the Nordic region.

STOCKHOLM, SWEDEN, May 16, 2022 /EINPresswire.com/ -- [Versasec](#) and [Skydome Cyber](#) partner to change the game of cybersecurity in the Nordic region. Versasec's award-winning software [vSEC:CMS](#), leader in digital identity management, will now be included within the design architecture, security analysis, and technology solutions of Skydome Cyber.

The Nordic countries are among the most digitally developed countries in the world, leading the way across many industries worldwide. According to ScandiConnect, a market research company, the countries are early adopters of new technologies and are at the forefront of digital developments to stay competitive. The report acknowledges the risks associated for these countries. Digitalization streamlines many business processes and improves efficiency, but it opens the door to a new array of cyber threats which require a game-changing approach. "The Nordic region is privileged to have professionals like Henrik Lannerhjelm and his team that truly understands the regional customers' needs," stated Versasec's CEO Joakim Thorén, "we are happy to be partnering with Skydome Cyber to bring our products to more companies and organizations in Sweden."

Versasec, the leader in identity and access management (IAM) provides security solutions for managing digital identities. Versasec's flagship product, vSEC:CMS, empowers companies of all sizes to easily deploy and manage virtual and physical PKI credentials, tokens, RFID, including FIDO capabilities, throughout their lifecycle. "Skydome Cyber will leverage Versasec vSEC:CMS in highly secured environments where customers are required by the NIS directive to use strong authentication. In these critical environments, security and ease of use must go hand in hand. The vSEC:CMS is the best Credential Management System in the market and provides security

Versasec

and ease of administration. With vSEC:CMS we can achieve this together," shared Henrik Lannerhjelm, CEO of Skydome Cyber.

For customers, Versasec provides a secure solution:

- Fast implementation that takes minutes, rather than weeks or months
- Intuitive user interface that improves operational efficiency
- No hidden costs and low total cost of ownership
- Highest level of security
- Large-scale capabilities, available from day one
- Wide range of customization options

About Skydome Cyber
