CO2-1-0 (CARBON) CORP appointed Mrs. TitaThy Nguyen, Chairman of Vietnam World Energy Council (WEC), as the new Executive Member of Advisory Board

Mrs. TitaThy Nguyen, in addition to her position as the Chairman of Vietnam World Energy Council (WEC), is also President of Vietnam Green Energy Network. Since 2014 she has been the Director of the Consulting Center and the Director of the Vietnam Energy Development Support Center of the Vietnam Energy Association. Her experience includes project management, power plant operations, commercial, financial, legal and corporate functions.

“

TitaThy will advise CARBON by working closely with the Vietnamese Government to implement the new global climate change regulations to achieve noble and aggressive targets in the environmental sector.”

Henry Fahman

Choky YF Simanjuntak, CEO and Founder of CARBON, stated: “We are grateful to have TitaThy be part of the Advisory Board. With her impressive experiences in energy business of Vietnam and ASEAN we believe she can leverage the networks to achieve all stakeholders’ net zero (decarbonization) in timely and according to the target. She

will advise us on the strategy, strengthening our carbon market, i.e. projects owners and carbon

offset, and at the same token accelerating combating global climate change as per our vision and mission.”

Henry Fahman, Chairman, Co-Founder & Chairman of the Advisory Board of CARBON, added: “TitaThy is a gem for us, she will help us in the Advisory Board, especially to work closely with the Vietnamese government to facilitate the implementation of the new regulations/ decrees regarding global climate change. CARBON will strategically expedite the adoption of the new regulation. We are happy to work together with TitaThy in achieving noble and aggressive targets in the environmental sector.”

About Vietnam Net-Zero Carbon Emission.

The updated NDC (2020) aims to reduce GHG emissions by 9% in 2030 compared to a BAU scenario, equivalent to 83.9 MtCO₂eq, using its domestic resources. The new target is 1% higher than in the first NDC. The GHG emissions cut target could be further increased to 27%, or 250.8 MtCO₂eq, with international support. In November 2021, Vietnam committed to reach net-zero carbon emissions by 2050.
