

Anti-Drone Market Size, Trends And Forecast | BAE Systems, Northrop Grumman Corporation, Lockheed Martin, Saab AB

The increasing emphasis on incorporating the directed energy weapons and extensive rise in investment in the defense & homeland security & intelligence bodies

VANCOUVER, BC, CANADA, May 12, 2022 /EINPresswire.com/ -- The Global Anti-Drone or Counter-UAV Market is forecasted to be worth USD 4.60 billion by 2027, according to a current analysis by Emergen Research. The key factors influencing the market growth include growing adoption of the Anti-Drone by

the defense agencies & intelligence bureau, growing adoption of the modern weaponry systems, increasing interest in the adoption of the DEW for the forthcoming combats, and rising interest upon the UAV, drones & missile destroyers, to name a few.

Besides, extensive rise in the cross-border conflict, broadening the number of the existing weaponry technology and updating them into the futuristic ones, and asymmetric warfare & intercountry border conflicts are some of the additional reasons behind the remarkable growth of the market. The laser-based DEW anti-drone system is expected to create higher enforcement into the market as many countries are deliberately developing or investing in the high-power laser-directed energy system for using against drones.

Key Highlights from the Report

In June 2020, Applied Technology Associates (ATA) revealed a contract for developing a target acquisition & tracking platform for the installation on a Stryker military ground vehicle being a part of U.S. Army initiative in order to increase the protection of the soldiers using laser weapon systems.

Higher applicability and increasing investment in the R&D of laser-based direct energy weapons have created a mentionable number of use cases and remarkable growth in the DEW market. The Laser sub-segment in the type of weapons systems segment had 61.2% market share in the year 2019.

The regions in the Asia Pacific led by China, India, Israel, and South & North Korea are allotting a considerable budget for their defense & law enforcement grooming purposes. Besides, growing incidences of interpersonal stand-offs, asymmetric warfare, terrorist activities, preparation for the forthcoming combats, along with higher economic development and enhancement in the manufacturing industry & science & technology, deliberately help propel market enforcement.
