DICE Dental offers dental implants, dentures, extractions, and crowns in Springfield, PA

“A dental implant replaces a missing tooth root,” explains Dr. Katie Alger, owner and operator of DICE Dental. “After surgery, your bone heals around the implant, we added a crown, and you naturally regain your chewing and speaking capabilities.”

“

Nearly everyone is a candidate for dental implants.”

Dr. Katie Alger

Dental implants are the most popular missing tooth solution available due to their success rate of over 90%. During a free consultation, Dr. Katie and her team will help patients explore additional procedures available to help improve the success rate of their treatment.

“Nearly everyone is a candidate for dental implants, from 19 to 99,” says Dr. Alger. “We just have to work together to develop a custom treatment plan best for their needs.”

Other services offered by DICE Dental include dental crowns and [dentures in Springfield](#). Dental crowns start at only \$650 and are made in-house using a CEREC milling machine. Conventional dentures are only \$499. They’re an affordable and convenient option for patients missing many teeth.
