Zen Healthcare IT Achieves HITRUST Risk-based, 2-year Certification to Mitigate Risk in Third-Party Privacy & Security

HITRUST Risk-based, 2-year Certification validates Zen Healthcare IT is committed to meeting key regulations and protecting sensitive information

COSTA MESA, CA, UNITED STATES, May 13, 2022 /EINPresswire.com/ -- [Zen Healthcare IT](), a leading provider of healthcare interoperability solutions, today announced the Gemini Integration-as-a-Service platform has earned Certified status for information security by [HITRUST]().

HITRUST Risk-based, 2-year (r2) Certified status demonstrates that the organization's Gemini Integration-as-a-Service Platform has met key regulations and industry-defined requirements and is appropriately managing risk. This achievement places Zen Healthcare IT in an elite group of organizations worldwide that have earned this certification. By including federal and state regulations, standards, and frameworks, and incorporating a risk-based approach, the HITRUST Assurance Program helps organizations address security and data protection challenges through a comprehensive and flexible framework of prescriptive and scalable security controls.

"Our organization is committed to meeting complex compliance and privacy requirements that include technical and process elements such as NIST and ISO," said James D Benson, CEO, at Zen Healthcare IT. "We are pleased to demonstrate to our customers the highest standards for data protection and information security by achieving HITRUST Risk-based, 2-year Certification."

"The HITRUST Assurance Program is the most rigorous available, consisting of a multitude of quality assurance checks, both automated and manual," said Bimal Sheth, Executive Vice President, Standards Development & Assurance Operations, HITRUST. "The fact that Zen Healthcare IT has achieved HITRUST Risk-based, 2-year Certification attests to the high quality of their information risk management and compliance program."

About Zen Healthcare IT
Zen Healthcare IT("Zen") is an interoperability technology and services company. We help all stakeholders in healthcare - HIT vendors, providers, public health, payers, HIEs, and ACOs simplify interoperability. Using Zen's Gemini Integration-as-a Service platform and years of subject matter expertise, we get clients exchanging data faster. Supporting a full range of healthcare interoperability use cases, the Gemini platform brings harmony to a cacophony of

data exchange formats. Zen is proud to be HITRUST CSF r2 certified and a Carequality Implementer, offering a secure, fast onramp to national trusted data exchange.
