

Forensic Psychiatrist Carole Lieberman, M.D. Focusing Her Column On The Johnny Depp vs. Amber Heard Defamation Trial

NEW YORK, UNITED STATES, May 16, 2022 /EINPresswire.com/ -- Forensic Psychiatrist and Expert Witness [Carole Lieberman, M.D.](#) is currently focusing her bi-weekly column, "[Inside the Criminal Mind](#)," on The Johnny Depp vs. Amber Heard Defamation Trial. Her latest columns, in "[Front Page Detectives](#)," have covered the psychological analyses of Johnny Depp and Amber Heard's testimony as well as their Expert psychologists. Her previous columns have focused on Nikolas Cruz, Kyle Rittenhouse, Ahmad Arbery, Sherri Papini-the Gone Girl, Jussie Smollett, Brian Laundrie, Prince Andrew and others.

Dr. Lieberman's analyses come from training in Forensic Psychiatry at Bellevue in NYC, the quintessential place where the most notorious criminals are sent, and experience working on hundreds of criminal (and civil) cases - from rapists to robbers, and murderers to madmen.

Dr. Carole Lieberman says: "The defamation trial of Johnny Depp vs. Amber Heard in Fairfax County, Virginia, is addicting. Not only because of the colorful characters – Depp, Heard and their witnesses – but, because of the universal themes at the center of it: good lovin' gone bad, the thin line between love and hate, #MeToo vs. #HeToo, money, fame, jealousy and drama."

Recent Column called "Inside The Criminal Mind: Who To Believe At The Johnny Depp and Amber Heard Trial."
