Ideally, [sun care](#) protection measures are applied all year round – but with summer here, it's especially important to be diligent with SPF in a skincare routine. [UV rays](#) are incredibly harmful to the skin. Over time, too much sun exposure can cause:

early signs of aging, uneven skin tone, dark spots and even skin cancer in severe cases.

Luckily, avoiding these issues is made easier with [COOLA](#), the all natural skin protection care products. Every COOLA product is crafted with certified organic ingredients and is infused with powerful antioxidants that help fight free radicals and support healthy skin. They are the perfect complement to an Eminence Organics routine.
